REMARKS

The present invention related to a human semaphorin protein.

Prior to the First Amendment and Response to Non-Final Office Action filed on February 13, 2003, Claims 22-56 were pending in the present application. Claims 22-25, 35-37, and 41-56 were withdrawn from consideration as non-elected. By the First Amendment and Response to Non-Final Office Action, Claims 27-28 and 30-31 were cancelled by the Applicant. Upon filing of the First Amendment and Response to Non-Final Office Action, Claims 22-26, 29, and 32-56 were to be pending in the present application, with Claims 26, 29, 32-34 and 38-40 being under consideration.

According to Notice of Non-Compliant Amendment mailed March 1, 2004, the First Amendment and Response to Non-Final Office Action was considered non-compliant because a complete listing of all the claims was not present. In order for the First Amendment and Response to Non-Final Office Action to be compliant, re-submission of the non-compliant "Amendments to Claims" section was required.

Upon review of the "Amendments to Claims" section of the First Amendment and Response to Non-Final Office Action, Applicants note that Claims 22-56 are listed in the section, while cancelled Claims 1-21 are not listed. Accordingly, Applicants hereby submit a corrected section "Amendments to Claims" listing Claims 1-56. Applicants respectfully assert that the section "Amendments to Claims" submitted herewith contains listing of all of the claims and meets the requirements of 37 C.F.R. § 1.121 as amended on June 30, 2003. Applicants respectfully assert that filing of the corrected "Amendments to Claims" section renders the First Amendment and Response to Non-Final Office Action compliant.

Applicants request reexamination and reconsideration of the application.
